

Scott DeNeale

Water Resources Engineer (EIT) | (865) 207-7353 | stdeneale@gmail.com

Education

Master of Science in Environmental Engineering, University of Tennessee

Knoxville, TN | May 2012

- Thesis: “Anticipated Changes in Precipitation Events over the 21st Century Using Community Climate System Model, version 4”
- Advisor: Dr. Joshua S. Fu

Bachelor of Science in Civil Engineering, University of Tennessee

Knoxville, TN | May 2011

- Chancellor’s Honors Program Graduate, Summa Cum Laude
- Minor in Business Administration

Employment History

Oak Ridge National Laboratory *(see R&D projects list on page 13)*

R&D Associate

Technical Staff Member – Water Resources Engineer

ORAU Postmaster’s Research Associate Participant

Oak Ridge, TN

Jan 2021 – present

Sep 2014 – Dec 2020

Mar 2013 – Sep 2014

University of Tennessee

Environmental Engineering Graduate Research Assistant

Civil Engineering Undergraduate Student Assistant

Knoxville, TN

Jun 2011 – May 2012

Sep 2009 – May 2010

Federal Highway Administration

Materials Engineering Technician *(summer position)*

Sevierville, TN

May 2010 – Aug 2010

Certificates and Awards

- **Engineer-In-Training Certification 29340, State of Tennessee** | Issued: May 2011
- **ORNL Environmental Sciences Division Research Support Award** | 2020
- **ORNL Supplemental Performance Award** | 2022 | 2016
- **HydroVision Technical Paper of the Year** | 2017: 1st place | 2015: 2nd place
- **Scholarships, University of Tennessee** | 2007-2011

John L. Callaway | Ina B. Howard | William and Pat Grecco | UT Volunteer
CVS Corporate | Regal Cinemas | Tennessee Educational Lottery

Professional Organization Memberships

- American Society of Civil Engineers (ASCE)
- American Geophysical Union (AGU)

Master’s Thesis

103. **DeNeale**, S. (2012), *Anticipated Changes in Precipitation Events over the 21st Century Using Community Climate System Model, version 4*, Masters Thesis, Department of Civil & Environmental Engineering, University of Tennessee, Knoxville.

Presentations

1. **DeNeale**, S., R. Uria-Martinez, M. Johnson, P. Ramuhalli, and G. Ghimire (2024), “US Hydropower and ORNL Research & Development,” August 2024, in-person meeting with Mercury NZ, Oak Ridge, TN.
2. **DeNeale**, S. (2024), “Teaching the Next Generation: Hydropower Science, Engineering, and Research,” July 2024, Appalachian STEM Academy, Oak Ridge, TN.
3. **DeNeale**, S., T. Stark, and A. Peters (2024), “CCR2PSH,” June 2024, Utility Solid Waste Activities Group 10th Annual CCR Workshop, Nashville, TN, invited talk.
4. **DeNeale**, S., and S.-C. Kao (2024), “Assessing US Conduit Hydropower Potential,” April 2024, Conduit Hydropower Development in the US – Opportunity and Challenges Virtual Workshop, online workshop.
5. **DeNeale**, S. (2024), “Recent Insights on the US Hydropower Market: Key Takeaways for the Southeast US,” January 2024, 2024 NHA Southeast Regional Meeting, Auburn, Alabama, invited talk.
6. **DeNeale**, S. (2024), “Pumped Storage Hydropower Development in the US: Can Geomembrane Liners Fit the Need?” January 2024, Workshop on Geomembrane Linings for Pumped Storage Hydro Applications, co-located at the 2024 NHA Southeast Regional Meeting, Auburn, Alabama, invited talk.
7. **DeNeale**, S. (2023), “Oak Ridge National Lab Perspective: Tipping the Economic Scale toward Small Hydro,” October 2023, Clean Currents 2023, Cincinnati, OH, invited talk.

8. **DeNeale, S.** (2023), "DOE Hydropower Collegiate Competition: Introduction to Siting and Design for Non Powered Dams," October 2023, Clean Currents 2023, Cincinnati, OH, invited talk.
9. **DeNeale, S., C. Hansen, J. Feyyisa, G. Oladosu,** (2023), "Analyzing Opportunities to Power Non-Powered Dams," October 2023, Clean Currents 2023, Cincinnati, OH, poster presentation.
10. Koritarov, V., and S. **DeNeale** (2023), "Technology Strategy Assessment: Pumped Storage Hydropower Technologies Deep Dive," July 2023, 3rd Annual DOE Energy Storage Grand Challenge Summit, Atlanta, GA.
11. Koritarov, V., and S. **DeNeale** (2023), "Technology Strategy Assessment: Pumped Storage Hydropower," July 2023, 3rd Annual DOE Energy Storage Grand Challenge Summit, Atlanta, GA.
12. **DeNeale, S.** (2023) "Thinking Small Hydro: Research & Development to Drive Low Impact Growth," July 2023, HydroVision International 2023, Charlotte, NC, invited talk.
13. **DeNeale, S.** (2023), "Under Pressure: Research Surrounding the Multifaceted Challenge of US Hydropower Growth," June 2023, American Society for Engineering Education 2023 Annual Conference, Baltimore, MD, invited talk.
14. **DeNeale, S.** (2023), "An Assessment of Hydropower Potential at National Conduits," February 2023, Northwest Hydropower Association Small Hydro Workshop, Portland, OR, invited talk.
15. **DeNeale, S.** (2022), "Advances in Reservoir Linings for Pumped Storage Projects," October 2022, Clean Currents 2022, Sacramento, CA, invited talk.
16. **DeNeale, S.** (2022), "An Assessment of Non-Powered Dam Hydropower Development Opportunities in the United States," October 2022, Clean Currents 2022, Sacramento, CA.
17. **DeNeale, S.** (2022), "Applying Pumped Storage Hydropower for Mine Land Applications: DOE Demonstration Program," October 2022, Clean Currents 2022, Sacramento, CA.
18. **DeNeale, S.** (2022), "Applying Pumped Storage Hydropower for Mine Land Applications: DOE Demonstration Program," September 2022, Clean Energy Demonstrations for Mine Lands Workshop, Knoxville, TN.
19. **DeNeale, S.** (2022), "Pandemic-Era Research & Development: Tackling Future Energy Needs with Improved Data and Approaches," August 2022, Tennessee Society of Professional Engineers (Knoxville Chapter), Knoxville, TN, invited talk.
20. **DeNeale, S.** (2021), "Innovation Opportunities for Hydropower Geotechnical Foundations," December 2021, online workshop.
21. Carter, F., S. **DeNeale**, C. DeRolph, and C. Hansen (2021), "Non-Powered Dam Explorer Tool Meeting #2: Beta Review," December 2021, online webinar.
22. Carter, F., S. **DeNeale**, C. DeRolph, and C. Hansen (2021), "Non-Powered Dam Explorer Tool: Beta Demo," November 2021, online webinar.
23. Hansen, C., S. **DeNeale**, C. DeRolph, and F. Carter (2021), "NPD Explorer and NPDamCAT: web tools supporting analysis of non-powered dams," July 2021, online webinar.

24. Hansen, C. and S. **DeNeale** (2020), "Challenges and Opportunities for Non-Powered Dams: Improving Classification and Data Access," December 2020, online webinar.
25. Greco, T. and S. **DeNeale** (2020), "Groundbreaking Hydro Prize," December 2020, online webinar.
26. **DeNeale**, S., G. B. Baecher, and K. M. Stewart (2020), "Current State-of-Practice in Dam Risk Assessment," Nuclear Regulatory Commission 5th Annual Probabilistic Flood Hazard Assessment Research Workshop, Rockville, MD, February 2020, poster presentation.
27. **DeNeale**, S., S.-C. Kao, E. Yegorova, J. Kanney, and M. Carr (2019) "A Watershed-based Assessment of Precipitation Areal Reduction Factors in the Ohio River Basin," American Geophysical Union 2019 Fall Meeting, San Francisco, CA, December 2019, poster presentation.
28. **DeNeale**, S., (2019), "Standard Modular Hydropower: Environmentally compatible, low-cost technology acceleration," Northwest Hydropower Association Small Hydro Buyer's Workshop, Bend, OR, August 2019, invited talk.
29. **DeNeale**, S., S.-C. Kao, E. Yegorova, J. Kanney, and M. Carr (2018), "A Comparative Evaluation of Precipitation Areal Reduction Factor Variability across the Conterminous United States," American Geophysical Union 2018 Fall Meeting, Washington, DC, December 2018, poster presentation.
30. **DeNeale**, S., and S.-C. Kao (2018), Comments on Development of a National Guidance Document to Review Site-Specific PMPs, Rockville, Maryland, August 2018, invited talk.
31. **DeNeale**, S., P. O'Connor, D.R. Chalise, E. Centurion, A. Maloof, and N. Samu (2015), Parametric Cost Modeling for National-scale Hydropower Feasibility, HydroVision International 2015, Portland, Oregon, July 2015, poster presentation.
32. **DeNeale**, S. and B. Hadjerioua (2014), Total Dissolved Gas (TDG) Prediction in the Mid-Columbia River System, 2nd Annual ORNL Postdoc Research Symposium, Oak Ridge, Tennessee, July 2014, poster presentation.
33. **DeNeale**, S., Q. F. Zhang, P. O'Connor, and S.-C. Kao (2014), Statistical Characteristics of US Hydropower Plant Capacity Factors, HydroVision International 2014, Nashville, Tennessee, July 2014, poster presentation.

Merit Review

1. U.S. Department of Energy, Water Power Technologies Office, 2024 Hydropower Collegiate Competition, co-located with NHA Midwest Regional Meeting, April 2024.
2. U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Small Business Innovation Research (SBIR) FY2023 Phase I Release 2, Advanced Coatings and Geomembrane Liners, April 2023.
3. U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Funding Opportunity Announcement Number: DE-FOA-0002080, August 2019.
4. U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Funding Opportunity Announcement Number: DE-FOA-0001286, July 2015.

ORNL Research & Development

Funding History (*high-level*)

- Led R&D projects from 2019-2024, ranging from \$1M-2.5M per year, providing funding coverage for 4-10 staff per year.
- Led multiple proposals, including \$2.2M each in 2023 and 2024.

Hydropower (U.S. Department of Energy)

- Conduit Hydropower Engineering, Evaluation, and Technology Acceleration
- US Non-Powered Dam Resource Assessment Update
- PSH Liner Methods and Geomembrane Lining System Cost Model
- Puerto Rico Energy Public Policy Act (Act 17): Puerto Rico 100 Hydropower Resource Assessment
- Standard Modular Hydropower Technology Acceleration (including Laboratory Research & Industry Collaboration under Funding Opportunity Announcements)
- DOE HydroWIREs Technical Assistance on Underground Pumped Storage Hydropower
- DOE Energy Storage Grand Challenge: Storage Innovations 2030
- Non-Powered Dams Development Opportunity Assessment
- Bi-Partisan Infrastructure Law Support: EPAct Section 247 Technical Assistance
- Clean Energy Demonstrations on Mine Lands
- Reservoir Lining Study for PSH Plants
- Hydropower Test Facility Scoping Study
- Geotechnical Foundations for Hydropower
- National Conduit Hydropower Resource Assessment
- Pumped Storage Hydropower FAST Commissioning
- Modular Pumped Storage Hydropower Technology, Feasibility, and Economic Analysis
- Alaskan Hydropower Development Opportunities
- Cost Data Collection and Modeling for Hydropower
- DOE Hydropower Vision
- Hydropower New Stream-reach Development Assessment
- Water Quality Modeling Improvements (Columbia/Cumberland River Basins)
- International Collaboration (International Energy Agency Annex XI)
- International Engagement Technical Support (Lower Mekong Initiative: Foundations for Strategic Lower Mekong Hydropower and Water Resource Management)

Nuclear (U.S. Nuclear Regulatory Commission)

- Methods for Estimating Joint Probabilities of Coincident and Correlated Flooding Mechanisms for Nuclear Power Plant Flood Hazard Assessments
- Application of Point of Precipitation Frequency Estimates to Watersheds
- Critical Review of State of Practice in Dam Safety Risk Assessment
- Licensing Amendment Request Technical Reviews
- Site-specific Probable Maximum Precipitation Technical Reviews
- Mitigating Strategies Assessment Technical Reviews
- Flood Hazard Reevaluation Technical Reviews

Other Leadership Positions

- 2025 HYDROVISION International conference advisory committee (2024-present).
- ORNL Water Power Program Hydraulics & Water Management Theme Lead (2021-present).
